Subject: Request for Well Decommissioning; 1240 Powell Street, Emeryville (Garza Associates; RO2869)

Ron and Norm,

I wanted to let you know that the 60 day public comment period closed yesterday PM. ACEH received just one call in regards to the pending closure of the case. It was not substantial in content, mainly asking for very general case details. Consequently, you may now proceed with well decommissioning (presuming that drill rig scheduling has occurred as previously requested). **ACEH requests submittal of a well decommissioning report by June 24, 2013.** The report should include required well permits, a description of the decommissioning process, relevant dates, required DWR forms, and etc. Usually it is just a few pages of text. The report is due in less than two weeks, but is intended to provide closure by June 30th. Let me know if this will be a problem.

Should you have questions, please let me know.

Thanks,

Mark Detterman
