Hi Norm,

Thanks for the phone call this morning and keeping me up to date on the site. It sounds like you have had troubles retaining a drilling contractor with a limited access rig for the interior soil bore. Based on your revised drill date of April 15th ACEH will revise the report submittal deadline to May 17, 2010.

Dear Mark,

Due to the extraordinary number of rain-affected days during the winter of 2009, we are formally requesting an extension on the due date for the submittal of the Soil and Groundwater Investigation Report at 1240 Powell Street in Emeryville. As discussed over the telephone on Friday, March 19, we concur with a due date of May 1, 2010. Thank you for your consideration.

Best Regards,

Norman T. Ozaki, Ph.D.
