Subject: RO2869 Public Notification Call
Entry Type: Phone call
Start: Tue 4/23/2013 11:33 AM
End: Tue 4/23/2013 11:33 AM
Duration: 0 hours

Return VM from Sheila Telleran in regards to the potential closure of this case. We spoke briefly and I relayed that the downgradient well (downstream well) is non-detectable for contaminants so there is no known exposure offsite. Residual contamination remains onsite, but the concentrations are considered to be below concentrations of concern. She recalls the service station that was at the location. OK, thank you.
