04/13/05, 335p, 1 ft down excavated, performed AST removal & excavation on their own & without regulatory oversight, no samples collected when excavation completed, stopped when it looked okay, want clearance frm us to dispose of soil. Recc she contactv env prof to assist her in appropriately char the waste & disposing w/proper documentation. Will look at case & determine listing, appears confirmation sampling of soil (& GW) will be needed
