Subject: Conditional Work Plan Addendum Approval; SCP Case RO0002895, Wash Time  
Laundromat, 1815 Park Boulevard, Oakland, CA 94606

Dear Mr. Hoi Phua and Linll Lee:

Alameda County Department of Environmental Health (ACDEH) staff has reviewed the case file including the *Underground Utility Survey and Modified Boring Locations*, dated October 15, 2018, prepared and submitted on your behalf by AEI Consultants. The letter documented the surveyed location, and reported the depth of, underground utilities at, and in the vicinity, of the site. As requested by ACDEH, the locations of soil bores SB-12 and SB-13 were modified based on the utility survey.

Based on ACDEH staff review of the letter, the proposed scope of work is conditionally approved for implementation provided that the technical comments below are incorporated during the proposed work. Submittal of a revised work plan or a work plan addendum is not required unless an alternate scope of work outside that described in the work plan or these technical comments is proposed. We request that you address the following technical comments, perform the proposed work, and send us the report described below. Please provide 72-hour advance written notification to this office (e-mail preferred to: [mark.detterman@acgov.org](mailto:mark.detterman@acgov.org)) prior to the start of field activities.

### **TECHNICAL COMMENTS**

- 1. Revised Bore Locations** – The revised locations of soil bores SB-12 and SB-13 appear to be reasonable based on the surveyed sanitary sewer utility location. The letter stated the bores will be installed within 2 feet of the surveyed sanitary sewer location.
- 2. Incorporation of Comments from Letters of April 4, and July 2, 2018** – Please ensure comments contained in the April 4, 2018, and July 2, 2018 letters are incorporated into field work.
- 3. Observance of DTSC Rainfall Restriction** – Consistent with Department of Toxic Substances Control (DTSC) guidance, please ensure that vapor samples are not collected within five days of a significant rainfall event, defined as ½-inch or greater of rainfall within a 24-hour period. Please ensure to document the rainfall within the five days prior to a sampling event in the report requested below.

### **TECHNICAL REPORT REQUEST**

Please submit the following technical reports and deliverables to the State Water Board's Geotracker website and notify your case worker by electronic mail ([mark.detterman@acgov.org](mailto:mark.detterman@acgov.org)), in accordance with the following specified file naming convention and schedule, as provided below, and in the Responsible Party(ies) Legal Requirements/Obligations which is included as Attachment 1. Please note ACDEH no longer accepts reports on the ftp site.
