Phone call with Chris Spangler of SCS Engineers 858-571-5500. Working for a prospective purchaser of property. He has prepared a Phase I report for site. He asked how the case would be handled if a new party wanted to take over investigation and cleanup. I will discuss process with Donna Drogos. They have plans for an affordable housing project and will be applying for prop 1C money. Prop 1C is a funding source for Brownfields development that allows grants up to \$5M. They will likely submit the Phase I report and mitigation plan.
