**Subject:** RE: 700 Independent Road (RO0002900)

Hi Charlie,

Your monitoring report has been received in our case files and I will review the case for potential closure. Unfortunately, my caseload has significantly increased as of late and I have a large number of cases requiring action prior to closure review for your case. Pending closure review, groundwater monitoring for case RO2900 may be suspended at this time.

Regards,

**Jerry Wickham**

Hi Jerry,

As you know from a previous email message sent by a colleague of mine, Alvaro Dominguez, we uploaded the First Quarter 2010 Quarterly Monitoring Report for the 700 Independent Road property to the County's ftp site today. This report provides chemical analytical results for the fourth quarter following chemical oxidation treatment at the site. In our previous telephone conversation late last fall you indicated that you would consider preparing a closure summary for closure of the site following a receipt of the next round of site monitoring activities. Accordingly, at this time we would like to pursue closure of the site. Please call (or email) me after you have had a chance to review the report or if you have any questions.

Thank you,

Charlie Almestad
