Erik,

I have no objection to including results from both well installation and GoreSorber in one report without an interim report. If you decide to do this, please propose a schedule extension for report submittal.

Subject: Lucasey Recovery Well Update

Hi Jerry,

Just an update to let you know we are installing the recovery wells right now. The GoreSorber modules should be going in the ground very soon. I'll send you an interim report on the well installation and then a full report after the GoreSorber investigation is complete. If you have any questions or need further information please email or call me at 510-307-9943 x 227.

Regards,

Erik
