Subject: Lucasey Site Report Submittal Extension Request

Jerry- I would like to request a 30 day extension of the deadline for submittal of the Site Investigation Report for the Lucasey Manufacturing site (2744 E. 11th St., Oakland RO0002902) to July 16, 2010. This will allow us to include the documentation of the final product monitoring well. That well will be installed in E. 11th St., requiring an indenture agreement with the City of Oakland which has been delayed in processing. We now have the agreement in place and can install the well. All other field work aside from extended product recharge monitoring has been completed. Thank you for your consideration.
