**Subject:** RO2909 - 636 Terminal Cir  
**Entry Type:** Phone call

**Start:** Fri 1/13/2006 9:32 AM  
**End:** Fri 1/13/2006 9:32 AM  
**Duration:** 0 hours

1/11/06, 855a, bob tingley, City of Livermore  
Discharge report for airport in livermore  
Just following up, assign CW, don't know whats next, give call when get chance  
925-580-8450

01/13/06, 925a, in case listing process  
NOR w/in 2-3 weeks, followed by directive ltr in 30d  
He has final reports & updated info beyond that e-mailed to me, he will compile & send to me. Told him CW should have that info to review before issuing initial directive letter. He will compile next week.

**Entry Type:** Phone call  
**Start:** Tue 12/6/2005 10:48 AM  
**End:** Tue 12/6/2005 10:48 AM  
**Duration:** 0 hours

NEW CASE - 636 Terminal Circle, Livermore  
11/29/05, 1116a, bob tingley, 925-580-8450  
City of livermore, livermore airport  
Made progress, did things, talk make sure route they are going is okay

11/29/05, 1038a, John Rigtor  
Airport fueling system, transferring case to me by end of week  
Want electronic file of forms? If need now.

12/06/05, 1045a, called him back, was waiting to discuss w/John & receive documents in mail  
Have info & reports from LPFD will now list case approx 2 weeks (likely he will not get contacted until after holiday) he is okay with that. He excavated what they could & backfilled to continue with construction. Next we will be requesting SWI.

**Start:** Mon 11/28/2005 3:44 PM  
**End:** Mon 11/28/2005 3:44 PM  
**Duration:** 0 hours

John Rigtor, LPFD

Sampling at site, excavated to 17' bgs, still contaminated  
So laying pipeline, & will backfill hole to complete constrution project  
LPFD will transfer case to us,

Mike Mikasay, 925-960-4533, City of Livermore

636 Terminal Circle, Livermore

Robert Tingley, City of Livermore

Discuss pipeline sampling, gave me results. Recc work with consultant to collect addtl samples. Overex to get gross contamination removed, collect addtl samples under LPFD oversight. Complete URF & submit soil sampling reports, LPFD to transfer to us. Not necc to remove all contamination befoe backfill, depends on what encountered if contamination extensive then may not be feasible to overex. He thinks it shuld not be extensive since it a piping release.

8000ppm TPHG depth?, 300,000 ppm TPHG in sockpile
