Subject: RO#0002913 224 Rickenbacker Circle

Jerry,

The analytical results that have been uploaded to the ftp site for 224 Rickenbacker Circle (RO#0002913) reflect an indoor air study that was conducted by P&D Environmental in October 2006. We apologize, as we had assumed you had been provided with these results. The analytical results were compared with OSHA Permissible Exposure Levels (PELs) and found not to exceed the established screening values. The conclusion in the Soil and Groundwater Sampling Results stating that "historic use of the Property as a dry cleaner does not appear to pose a risk to use the building for commercial use" was based partially on the results from this indoor air study. Please review the P&D Environmental report and determine if you concur that commercial occupancy of the structure would be appropriate.

Thank you,

Kelly Krohn | **ENGEO Incorporated - Expect excellence** | 2010 Crow Canyon Place, Suite 250 | San Ramon, CA 94583 | Office: 925-866-9000 | Fax: 888-279-2698 | www.engeo.com
