**Subject:** RE: Request for Extension: Notice to Comply -  
**Attachments:** Rolls Royce Notice to Comply.PDF

Hi Donna,

We have not been able to resolve the issues on the attached Notice to Comply (NTC) letter. There are three case numbers on this site; we are familiar with two of them. One is for the Main Building and the second one is for the Test Facility, but we still can't figure out what this third one is (the one the Notice to Comply is referring to). Rolls Royce Engine Services and the Port of Oakland would like to speak with Steven Plunkett to clarify all the case numbers and this NTC. We were informed that Steven is still out of the office. We would like to request for another extension (to be determined when Steven is back) so we can discuss this matter with him.

Please advise.

Thanks,  
Colleen

**Subject:** Request for Extension: Notice to Comply - GeoTracker Status for Fuel Leak

Hi Donna,

I tried to reach Steven Plunkett, but his out-going message indicated he will be out of the office until August 17th, so I was hoping you could assist me. The Port of Oakland received a "Notice to Comply" letter from the Alameda County Health Care Services for the National Airmotive Corp Site (Case No. RO0002915). See attached. The letter indicates that this site has not been claimed in the database since July 1, 2005, and we had until today (August 10th) to input all the analytical data since that date to now. Unfortunately, I have been on vacation and did not see this letter until I got back today. Therefore, I would like to request a two week extension (by August 24) so I can find what happened and ensure all the appropriate data is entered into the GeoTracker website.

Please let me know if our extension is approved.

Thanks,  
Colleen
