Morgan,

If grouting the well is acceptable to Zone 7, we have no objection.

Jerry, Zone 7 stated that we could simply grout the wells without drilling out the casing. Is this acceptable to you?

Actually that was the question...we will be sending you the removal action report next week and would like to proceed with the well destructions concurrently.

Thank You,

You can try to call me at 510-773-0352 Wednesday, December 2. I have not looked at this case in a long time so I can't answer questions. Is there a reason that you cannot just submit the soil removal and well destruction report?

Jerry,

Would you have 5 minutes to talk tomorrow about the closure report and well destructions?

Thank You,
