Hello Dilan,

We wanted to provide an update for the current tasks at Jordan Ranch.

1. We will be providing a draft revised groundwater assessment work plan by this Friday, addressing the items we discussed by phone last week.
2. We are conducting the quarterly groundwater and soil gas event this week.

ENGEO and BJP-ROF Jordan Ranch, LLC are committed to collaborating with you and ACEHS to work through the remaining details for the site conceptual model and interim remedial action plan within the next three to four weeks.

Additionally, we are considering preparing a human health risk assessment for the site sometime in November.

Thank you,

Shawn Munger, CHG, PG, EM
Principal
