Pinn Bros. has permit to demo the building

Not much grading, some terracing, balanced site

Demo bldg, leave pavement in place for remediation investigation

Need investigation of deeper extent & GW

Ashton & Papineau want case to be soils only without investigating GW

Ashton: 10'-20' is normal, just call it soils only. Is on upland side, not tied to usavble GW?

No, GW investigation will be req'd

Referred him to data for adjacent site (3884 1st) deep CPT borings onsite, idea of what to expect for souil & GW conditions.

Trench went into UST backfill

Sewer line to be excavated completely
