Dear Mrs. Thompson,

Alameda County Environmental Health (ACEH) staff requested a soil investigation at the subject property on September 30, 2013 and that the investigation report be uploaded to both the ACEH ftp site and the State Water Resources Control Board's (SWRCB) Geotracker website by November 29, 2013 (Directive letter attached). ACEH is aware the investigation was conducted as we were provided the analytical laboratory report for the investigation at the subject site on November 7, 2013 via email correspondence with Mr. Joseph Cotton of Impact Environmental Services (IES).

Based on a preliminary review of the analytical data ACEH is considering this case for closure under the SWRCBs Low Threat Underground Storage Tank Case Closure Policy (LTCP). Therefore, please upload the requisite Soil and Water Investigation Report to the ACEH ftp site (Attention: Keith Nowell), and to the Geotracker website in accordance with the following specified file naming convention and schedule:

February 11, 2014– Soil and Water Investigation Report (file name: RO0002933_SWI_R_yyyy-mm-dd)

Thank you for your cooperation. ACEH looks forward to working with you to advance the case toward closure. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Happy New Year,
Keith Nowell
