Hello Bruce:

Thank you for sending the revised Figure 6 of your December 30, 2016 Data Gap Work Plan Addendum and Updated Site Conceptual Model (Addendum). As discussed during our January 12, 2017 conference call and as described in the January 23, 2017 Directive Letter's Technical Comment 1, the Addendum is now approved for implementation. Submittal of a revised work plan or a work plan addendum is not required unless an alternate scope of work outside that described in the work plan addendum is proposed. We request that you perform the proposed work, and send us the technical data in described below. Please provide 72-hour advance written notification to this office (e-mail preferred to: karel.detterman@acgov.org) prior to the start of field activities.

As discussed during the conference call, to expedite review, upon completion of the field work and receipt of all soil and groundwater analytical results, please submit the boring logs, figures, and summary tables of historical and new soil and groundwater analytical results to karel.detterman@acgov.org. We will schedule a meeting to discuss the findings and next steps.

- March 31, 2017 – Schedule Meeting to discuss investigation results

Sincerely,

Karel Detterman, PG

**Subject:** Automasters (RO2935) - Revised Figure 6.

Hello Karel,

Here's the revised Figure 6 for Automasters' work plan. Please let me know if this is acceptable.

Thanks,

Bruce Jacobsen
