AEI Project No. 274761

Dear Mr. Plunkett:

The following is a formal request for a 45-day extension for the Soil and Groundwater Investigation with Soil Excavation Report obtaining to the above referenced site originally due April 15, 2009. Field work for the soil excavation commenced on March 2, 2009 and is now completed. Field work for the monitoring well installation began on April 1, 2009 installing MW-1 through MW-4 and MW-6. Due to access restrictions MW-5 and MW-7 have yet to be installed. Monitoring wells MW-5 and MW-7 can not be installed for another 2-3 weeks. In order to create an adequate report for your review, as mentioned before, AEI would like to request a 45-day extension on the Soil and Groundwater Investigation with Soil Excavation Report resulting in a proposed new due date of June 1, 2009. Please let me know if this is acceptable at your earliest convenience.

Please contact myself or Robert Flory if you have any questions. Mr. Flory can be reached at (925) 746-6000, ext 122, my extension is 141.

Sincerely,
