Existence of Unauthorized Release

On February 22, 2000 one (UST) was removed from the site. Soil and groundwater sampling conducted in conjunction with the UST removal detected elevated concentrations of total petroleum hydrocarbon as gasoline (TPHg) and total petroleum hydrocarbon as diesel (TPHd). The case was transferred from the City of Oakland Fire Department to Alameda County Environmental Health in September 2006. During the UST removal, up to 920 parts per million (ppm) TPHg and 850 ppm TPHd were detected in soil, while groundwater samples collected from the UST excavation pit detected up to 3,300 parts per billion (ppb) benzene, 34,000 ppb TPHg and 7,400 ppb TPHd.

Responsible Party Identification

Steffi Zimmerman is the primary responsible party because she was the owner of the property where an unauthorized release occurred (Definition 3).
