Subject: RE: Do You Have a Preferred Report Submittal Date? (2145 35th Ave, Oakland; Chevron 9-8861; RO2945)

Hi Sami,
The revised date is reasonable and will allow the data to arrive. I have updated Geotracker with this change. Please use this email to document the extension request approval.
Thanks,

Hi Mark:

In your letter dated September 2, 2015 you mentioned a deadline to submit the latest soil and soil gas investigation report at the subject site on November 6, 2015. I am in the process of preparing this report. I have not received all the final EDD versions of the report yet to submit to the Geotracker. I need an extension of report date submittal until November 27, 2015.

Thanks for your cooperation.

Hi Sami,

Thanks for the updated figure; the alternate locations look reasonable. I'll look forward to the report!

Hi Mark:

As we discussed earlier this month, the alternate locations of soil gas borings SG-4 and SG-5 are shown on the attached figure. As you suggested, the location of SG-4 was moved to be near BH-17.

Let me know if you have any questions.

Have a good day.

Hi Mark:

I fact I scheduled the next phase of work at 2145 35th Avenue on the 29h of September. November 6th date for the report will be fine. When do you think I expect your regulatory letter in response to the last report? I will call you later for more coordination.

Thanks for your help and support.

Sami,

I had a chance to review your report, and just had one question – are you targeting a submittal date? Say perhaps November 6th? I could push out further, but I recall Peter wanted to move this as quickly as possible. Either way, you could still submit sooner. Let me know and I'll respond to memorialize it.

Thanks,

Mark Detterman
