Subject: RE: Time Extension Request Regarding 2145 35th Avenue, Oakland, CA

Sami,

My apologies for the delay, but I have extended the due date to April 27, 2018. I've updated Geotracker to reflect this information.

Hopefully the funding arrives soon and we can identify a path to closure for the site based on the data.

Hi Mark:

Happy New year. The last email I received from the Orphan Fund indicated that the pre-approval of the upcoming activities at the subject property is in its advanced stage. However, we have not received the pre-approval of the money yet. We kindly request another 90-day extension on the report submittal. That is, to submit the report by Friday, April 27, 2018.

Best regards,

Sami Malaeb, PE, QSD/QSP

Hi Sami,
I've extended the due date until January 27, 2018 per your request; however, your team may want to proceed sooner in an effort to reach closure sooner. The defined set of tasks will require a set period of time and as you will know, the sooner the time period is started, the sooner closure could be achieved.

Good Morning Mark:

Just an update of the site at 2145 35th Avenue, Oakland, CA. The client has not received any pre-approval of the proposed budget for the prescribed work yet from the Orphan Fund, we kindly request 90-day extension on the report submittal. That is, to submit the report by Wednesday, January 27, 2018.

Thanks,

Hi Sami,

I'm sorry the fund hasn't gotten back to you or the project yet. I've extended the delivery date 2 months past August 18th (October 27th), as you may still hear back between now and the August 18th. If not we can extend it again. Please use this email to document the change should you need to.

Hi Mark:

In your letter dated June 6, 2017 (attached), you requested the investigation report submittal by August 18, 2017. Due to the fact the client has not received any pre-approval of the proposed budget for the prescribed work yet from the Orphan Fund, we kindly request 90-day extension on the report submittal. That is, to submit the report by Tuesday, November 21, 2017.

Best Regards,

Well that would explain why it's open! No we don't work that day. I've got to get that on the calendar...

We can try to squeeze it in on the 21st, but the only time available is 4 – 5:30. I'll be on vacation the preceding week, and the first day back will be the 21st, so won't have a chance to review anything until that day. Otherwise it'll need to the March 8th.

Let me know.

Thanks for the reminder!

Sami and all,

Dilan is on vacation from February 22nd thru March 6th, so the earliest available afterwards is March 8th at 1 – 3. I've learned not to schedule a meeting the first day back with her. Another option is February 20th, at 1 – 3, if you can get the results back and tabulated sooner. The 21st is tight right now, and is her last day around the place.

Let me know your thoughts.

Hi Mark and Tom:

I scheduled the drilling and sampling at 2145 35th Avenue in Oakland on the 25th and 26th of January, 2017 (tentative, weather permitting). It takes three weeks after the 26th of January to get the lab results and prepare the tabulated data. Mark, please find out if February 27th or 28th, 2017 are available for a meeting. In the meanwhile, I am looking forward to your letter of approval for the Addendum Workplan.

Thanks,

Tom,

The draft work plan addendum looked good. I'll be working with Sami to identify a meeting date based on his drilling and analytical schedule; Sami just needs to coordinate with his contractors at this point and let me know his timeline.

Hi Tom:

Happy new year to you and Mark. It is early to set up a date yet. I sent Mark a draft workplan for drilling and sampling as we discussed in the last meeting. I am waiting for the workplan approval from Mark. Once the workplan is approved, I proceed with permitting and field activities. The field sampling and analysis will produce data to discuss in the next meeting.

Call me or email me with any questions,

Have a nice day,
