Received VM @ 3:27 August 15, 2011 in regards to status of site; from Peter Robinson
Received second VM @ 2:47 August 16, 2011.
Returned VM @ 4:00 to Mr. Robinson.

He now as most of permits, and has received funding, so wanted to check if we needed anything more.

His consultant had submitted a second addendum, which I had thought was responded to; however, I do not see that, but in reading the short addendum, I do not see a problem with the concept. He wanted to know if he could demo the building, but keep the pavement for now. I agree this is a useful tool that will help orient workers to the layout of the site, but that ACEH cannot make a recommendation as to the appropriateness of a site demo. OK, thanks; he wants to proceed while he can, especially in this economy.
