**Attachments:** Figure 6 Locations of Drilled and Proposed Soil Gas Sampling Locations Alt.pdf

Hi Mark:

The job at 2145 35<sup>th</sup> Avenue for Salisbury will occur on September 29, 2015, starting 8:00 a.m. Please note yesterday, during marking utilities, we found gas and sewer lines near proposed soil gas boring SG-5. I propose to move this boring slightly as indicated in the attached figure (SG-5-Alt). This will still serve the purpose, since it is still close enough to the building.

Thanks,

Sami Malaeb, P.E., QSP/QSD
