Erik,

Based upon your request, the schedule for report submittal for case RO2949 is extended to January 9, 2009.

There is one other item I would like to mention based on review of the extent of contamination beneath Second Street observed on your preliminary figures. You should include a discussion of utilities and preferential pathways in the report.

Dear Mr. Wickham,

The investigation, data collection and comments/approval from RPs to support Clearwater's conclusions and recommendations in the "Soil and Groundwater Investigation Report" is taking longer than anticipated. Clearwater respectfully asks for a two week extension to the December 12, 2008 deadline for this report. The new due date would be december 26, 2008. we anticipate no further extensions will be required. Thank you for your attention to this matter.
