**KLEINFELDER***An employee owned company*

March 26, 2007  
File No. 78200-1

Mr. Leroy Griffin  
Assistant Fire Marshal  
Fire Prevention Bureau  
Oakland Fire Department  
250 Frank H. Ogawa Plaza, Suite 3341  
Oakland, California 94612

**Subject: Soil and Groundwater Investigation  
California Highway Patrol – Oakland  
3601 Telegraph Avenue, Oakland, California, 94609**

Dear Mr. Griffin:

Attached is Kleinfelder's report describing the sampling activities and the analytical results for the January 24 and January 25, 2007 soil and groundwater investigation performed at the California Highway Patrol – Oakland facility located at 3601 Telegraph Avenue, Oakland, California. The objectives of this investigation included the following: (1) assessing the presence and extent of lead impacted soil and groundwater associated with a demolished gun range building at the CHP Oakland facility; and (2) assessing the potential presence of hydrocarbon impacts to soil and groundwater associated with an underground storage tank (UST) located at the facility.

Included in this report are the description of the Geoprobe soil and groundwater sampling for 12 borings, analytical results for soil and groundwater samples, and conclusions based on the results.

This report is submitted for your review and consideration. Kleinfelder recommends that this report also be provided to the Alameda County Department of Environmental Health (ACDEH). If you have any questions regarding the report, please do not hesitate to call me.

Sincerely,  
**KLEINFELDER, INC.**
