**Duration:** 0 hours

Phone call with project manager with Department of General Services. He is planning to pull the tank at CHP office in Oakland in July or August. He will select contractor within next two weeks and then have a planning meeting. I would not be able to attend the planning meeting. They are willing to overexcavate soil to extent practicable to facilitate closure of site. I will try my best to be on site at end of closure to inspect condition and provide input on overexcavation of soil.
