**Subject:** RE: Mission Valley Rock Case Closure

Thanks for the response Jerry, there have no investigations since that time. Mostly based on the findings of the 2007 report.

Please let me know if you need anything further to assist you with closure.

Hello Terry,

Good to hear from you. The one outstanding item from our October 15, 2014 correspondence on this site is some type of verification that no investigations were conducted at the site following the LFR report in 2007. We just want to make sure that we are not missing data for the site.

Regards,

Hello Jerry, hope all is well.

Just thought I would check in with you regarding the attached notice of potential case closure. I have not received a notice of closure or otherwise, but the notice may have gone to our corporate office and just have not seen it yet.

Any update would be great.

Thank you
