Hi Steven,

I heard from the consultant of the above site that they have submitted their work plan to your office. I just want to know if you've had the chance to review this. I would appreciate your assistance in expediting the approval since they still have to go through a bidding process for the work plan. Our program, the Orphan Site Cleanup Fund is currently funded by federal monies (ARRA) and time is of the essence to get our agreements going.

Thank you for your help and please give me a call if you have any questions.
