What about a deposit for the follow-up SLIC investigation? I understood that that was made a requirement, too, a justifiable one at that.

**Subject:** NICA Metals Inspection

FYI: We will be performing an unannounced inspection with Michael Oppido (DA's Office) on Friday at Nica Metals at 1:00pm. Hopefully, we will meet with the operator and notify him of all the County issues. Let me know if you have any specific concerns to address. We will be emphasizing getting a deposit for their site closure work plan and verifying all waste is or has been disposed of properly.

Barney
