Subject: Extension Request - RO2967

Ms. Jakub,
We have obtained permits to complete the well destruction activities at the subject site; however, due to the availability of contracted licensed drilling companies, we were not able to schedule the field activities earlier than September 27, which is the day following the deliverable deadline requested in your August 16, 2012 directive.

Additionally, the final executed waste manifests will need to be submitted with the final abandonment report. Receipt of these manifests with final disposal facility signatures can take up to 4-6 weeks following receipt of the laboratory analytical. As this is the case, Antea Group respectfully requests an extension of the September 26, 2012 deadline to November 16, 2012. The final report will be submitted earlier if feasible.

Your consideration is appreciated.

Thank you,
Lia
