The report you uploaded to our website had password protected. I could not do anything to the report such as put our stamp date on the report or rename the report, etc. Every reports upload to our website need to remove the password before uploading in order for me to post the report to the case file so the case worker can review it. I hope my explanation clear for you; please let me know if you have any question. Thanks.

P.S. Please delete the following file from the FTP site, "GMX '08_11037.001_Former Automotive Station Letter Report_Feb 21.pdf", it was posted in error on the FTP site before I realized that there was a special naming convention for the files. I tried to delete myself, but I don't have the rights to do so.
