Jerry,
No problem. Currently we are delayed due to grading permit issuance by the City of Alameda. We will provide both an update to the field schedule start date and provide the requested notification to you for sidewall sampling, once the permit issue is resolved. Thank you.

Dan,

I would like to observe sidewall sampling if I am able. Please give me a couple hours advance notice of when you will be collecting samples.

Regards,
Jerry Wickham

Mr. Wickham,

Pursuant to your regulatory letter for the above mentioned site (dated December 13th, 2010), CRA is providing advance notification that the excavation is scheduled to begin on March 15th, 2011. If you prefer to perform onsite inspection activities, please be sure to bring the appropriate personal protective equipment (Level D-including safety glasses, steel toe boots, reflective vest and hard hat). If you prefer to observe specific field activities (soil sampling, stockpile or sidewall), please let us know so we may inform you with enough advance notice to avert project delays in the field. We look forward to performing the project safely and to your expectations. Please contact Peter Schaefer or myself for any questions. Thank you.
