Phone call with Marty Hotzschuh 510-719-9761 to go over status of case. Work plan due 6/16/2008. It will take me about two weeks to review the work plan and send comments or approval. They will likely have about 60 days to complete the work.

Phone call with Russ Bartlett of AEI Consultants. Site to be characterized initially, possibly by screening with PID meter prior to excavation. I indicated that confirmation sampling will be required to confirm extent of excavation. Russ Bartlett indicated that client would like to excavate using his own crew. I indicated that excavation must be conducted by qualified personnel with HAZWOPER training.
