Duration: 10 minutes

Phone call from Alvaro Dominguez about Geotracker denial. Requested that EDF be uploaded and then I would approve both. No need for him to re-upload the denied file.

I mention about the State Board Resolution and he informs me that he recommended monitoring the new wells for 3 quarters so he won't reduce monitoring. The site is not being reimbursed by the fund.

I also asked when the drums would be removed and he said after the next gw sampling event in less than a week.
