Rebekah,

Sorry for the wrong due date, I must not have updated the due date when I sent out the letter. The due date should have been July 24, 2013. I placed that in Geotracker and will place this e-mail in our files.

I'll get back to you with more specific dates. Are there any dates that are better for you off the bat?

Regards,

Barb Jakub

Barb:

We would like to know your availability for a meeting, so that I can coordinate with our personnel and ExxonMobil representatives. In addition, we noticed that the due date for the SCM and work plan is June 14, 2013. We feel that the date for this should be postponed until we have had a chance to meet and discuss the site, and the strategy for reaching LTCP.
