Subject: RE: RO2974 Request for Reduced Sampling

Dear Ms. Sedlachek and Ms. Westrup,

Your request for semi-annual monitoring is temporarily declined. Since a pilot test was recently performed, ACEH requires quarterly verification monitoring for at least one-year.

Barb:

Hope this email finds you well. I am now managing Former Exxon 79374, Fuel Case No. RO0002974, located at 990 San Pablo Avenue, Albany CA. I was reviewing the Agency Correspondences in my files and on Geotracker, and I wanted to confirm that the reduced sampling schedule (Second and Fourth Quarters) proposed in our report, *Groundwater Monitoring Report Fourth Quarter 2011*, dated November 18, 2011, was acceptable to the County.
