RE: SOIL SAMPLING AND LABORATORY REPORT FOR SITE RED HANGER CLEANERS
LOCATED AT 6235 COLLEGE AVENUE, OAKLAND CA.

Dear Ms. Gordon:

Oakland Fire Department has reviewed the soil sampling and laboratory report prepared and submitted on your behalf by EFI Global dated June 2, 2005 EFI PN:98380-00-051. It should be noted that Volatile Organic Compounds (PCE) in low concentrations were found in soil at a depth of 3 to 4 feet bgs.

While the levels indicated in the report are below California Regional Water Quality Control Board, Environmental Screening Levels for commercial/industrial properties it is a recommendation that additional site characterization be accomplished should the use of the property changes.

Therefore, based on the information provided in the above reference report and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action is required by this agency. In addition, this site will be entered into the City of Oakland, Permit Tracking System for monitoring.

Sincerely,

LeROY GRIFFIN
Assistant Fire Marshal
Hazardous Materials Program Manager
