COMMENTS	During review of laboratory analytical results from soil and groundwater sampling, concentrations of MTBE (3600 ppb); benzene (17 ppb); and TPPH (gasoline, 3900 ppb groundwater and 1.5 ppm soil) were noted in groundwater and/or soil samples collected from the site by Delta Consultants (Delta). Delta notified Alameda County Environmental Health on 9/23/2008 by emailing Donna Drogos at 3:16pm PST. A report documenting the findings will be submitted to the agency within 60 days.
