Subject: RO2999: 7-11 #32266 Livermore Work Plan

Mr. Brown,

Submitting the Work Plan with the detailed well survey is preferable. The schedule for submitting the Work Plan is extended to October 1, 2010.

Regards,

Livermore, CA
Fuel Leak Case #RO0002999

Mr. Wickham,

This email provides a summary of the voicemail messages I have left you today regarding the work plan you requested for this site.

As I indicated, Stantec generated the WP a few weeks ago and has been awaiting the results of our inquiry to the DWR regarding water supply wells within the 2,000 foot radius of the site. As you are aware, you requested that a detailed well survey for the site be included with the work plan. Stantec has already received the information back from the Zone 7 Water Agency. Based on our calls to the DWR last week, we were hopeful to receive the DWR results by yesterday, September 27th in order to include them in the work plan that you requested we submit by today, September 28th. Unfortunately, Stantec just today finally received the information from the DWR which will not allow us time to review and include with the work plan today.

If acceptable to you, Stantec proposes submitting the work plan and detailed well survey to you tomorrow, September 29th. If this is acceptable to you, please respond to this email accordingly.

As always, please feel free to contact me at the numbers below at any time.

Thank You,
Damon Brown
