Dear Mr. Sanchez:

I have reviewed your draft sampling and analysis plan dated January 10, 1990, that was prepared by Kaldveer Associates. The plan did not address sampling under the concrete pad where you had discolored soil in the past. Please revise your plan to satisfy this concern and submit it to this office within ten (10) days of the receipt of this letter. Accompanying this plan, a deposit/refund check for \$375, payable to the County of Alameda should be submitted. Your sampling and analysis plan dated February 8, 1990, by Kaldveer Associates is unacceptable.

An investigation off-site may be required, depending upon your on-site investigation.

Please be aware that Section 25189(d) California Health and Safety Code states that any person who negligently disposes or causes the disposal of any hazardous or extremely hazardous waste at a point which is not authorized, shall be subject to a civil penalty of not more than twenty-five thousand dollars (\$25,000) for each violation.

If you have any questions, please contact Bill Faulhaber, Hazardous Materials Specialist at 271-4320.

Sincerely,

Larry Seto, Senior
Hazardous Materials Specialist
