**Subject:** RE: Western Forge & Flange - UST or AST?

Western Forge & Flange did not have any UST-not to my knowledge. They had an above ground 1000 gallon diesel tank for which we sampled in the area. It was by the driveway on the LHS. The UST removal that has been put there I think by mistake.

Thanks,  
Sukla

Hi Sukla,  
Do you know? I've seen both referenced for the same area in CDMS reports (!). The HMBP is less than helpful (and the files in the UST folder in the CUPA archives are mostly for a site in Livermore!). Can you enlighten?  
Thanks,
