Subject: RE: Sampling Plan for 540 Cleveland Avenue Building

Susan,

The Remedial Investigation has been completed; we are in the process of preparing the RI report. The plan for the building is to get unrestricted closure, so we would appreciate it if you would reopen the case. I will upload the Work Plan to the ACEH ftp site sometime today, and would appreciate it if you would review it in a timely manner.

Best regards,

Kris M. Larson, P.G.

Subject: RE: Sampling Plan for 540 Cleveland Avenue Building

Kris,

What is the status of the going cleanup?

CUPA closed the site with restriction and the oversight/deposit account was also closed.

Is the plan to open the case and conduct more work to achieve closure without any restrictions?

We are short staff at this time and I can't commit to when this will be reviewed.

Sincerely,

Susan Hugo

Subject: Sampling Plan for 540 Cleveland Avenue Building

Susan,
Attached is our sampling plan for the Western Forge & Flange building at 540 Cleveland Avenue in Albany. At this point we have already conducted the Soil and Groundwater Remedial Investigation for the property, and would appreciate your assistance in moving forward with evaluating the building. Please let me know when you think you will have your review completed.
Best regards,

Kris M. Larson, P.G.
