## **INVITATION TO COMMENT – POTENTIAL CASE CLOSURE**

**ALAMEDA FEDERAL BUILDING 2C  
620 CENTRAL AVENUE, ALAMEDA, CA  
SITE CLEANUP PROGRAM CASE RO0003010  
GEOTRACKER GLOBAL ID T10000001613**

**DECEMBER 10, 2013**

The above referenced site is a Site Cleanup Program (SCP) case that is under the regulatory oversight of the Alameda County Environmental Health (ACEH) for the investigation and cleanup of an elevator hydraulic fluid pipeline leak. Site investigation and cleanup activities have been completed and it does not appear that residual contamination presents a risk to human health and the environment. Therefore, ACEH is considering closure of the case. Due to the residual contamination on site, the site would be closed with site management requirements that require further evaluation if the site is to be redeveloped in the future.

This notice is being sent to the current occupants and landowners of adjacent properties and known interested parties for this site. The public is invited to review and comment on the potential closure of the case. The entire case file can be viewed over the Internet on the ACEH website (<http://www.acgov.org/aceh/lop/ust.htm>) or the State of California Water Resources Control Board GeoTracker website (<http://geotracker.swrcb.ca.gov>). Please send written comments to Karel Detterman, ACEH, 1131 Harbor Bay Parkway, Alameda, CA 94502; all comments will be forwarded to the responsible parties. Comments **received by February 7, 2014** will be considered and responded to prior to a final determination on the proposed case closure.

If you have comments or questions regarding this site, please contact the ACEH caseworker, Karel Detterman at 510-567-6708 or by email at [karel.detterman@acgov.org](mailto:karel.detterman@acgov.org). Please refer to ACEH case RO0003010 in any correspondence.
