**Cc:** 'Mike Rogers'  
**Subject:** ABF Facility, 4575 Tidewater, Oakland  
**Attachments:** Revised Proposed Monitoring Well Map.pdf

Hi Mark,

This email confirms our earlier phone conversation, regarding the scope of work for the next phase of work at the referenced site.

ABF has agreed to the additional soil boring with grab-groundwater sampling, with the two wells to be installed at the site. The attached mark-up shows our proposed well and boring locations.

We will be sure to sample soils at shallow depths, so we will have data for the low-threat closure guidelines.

If this all looks ok, then we'll schedule the work for December 2012.

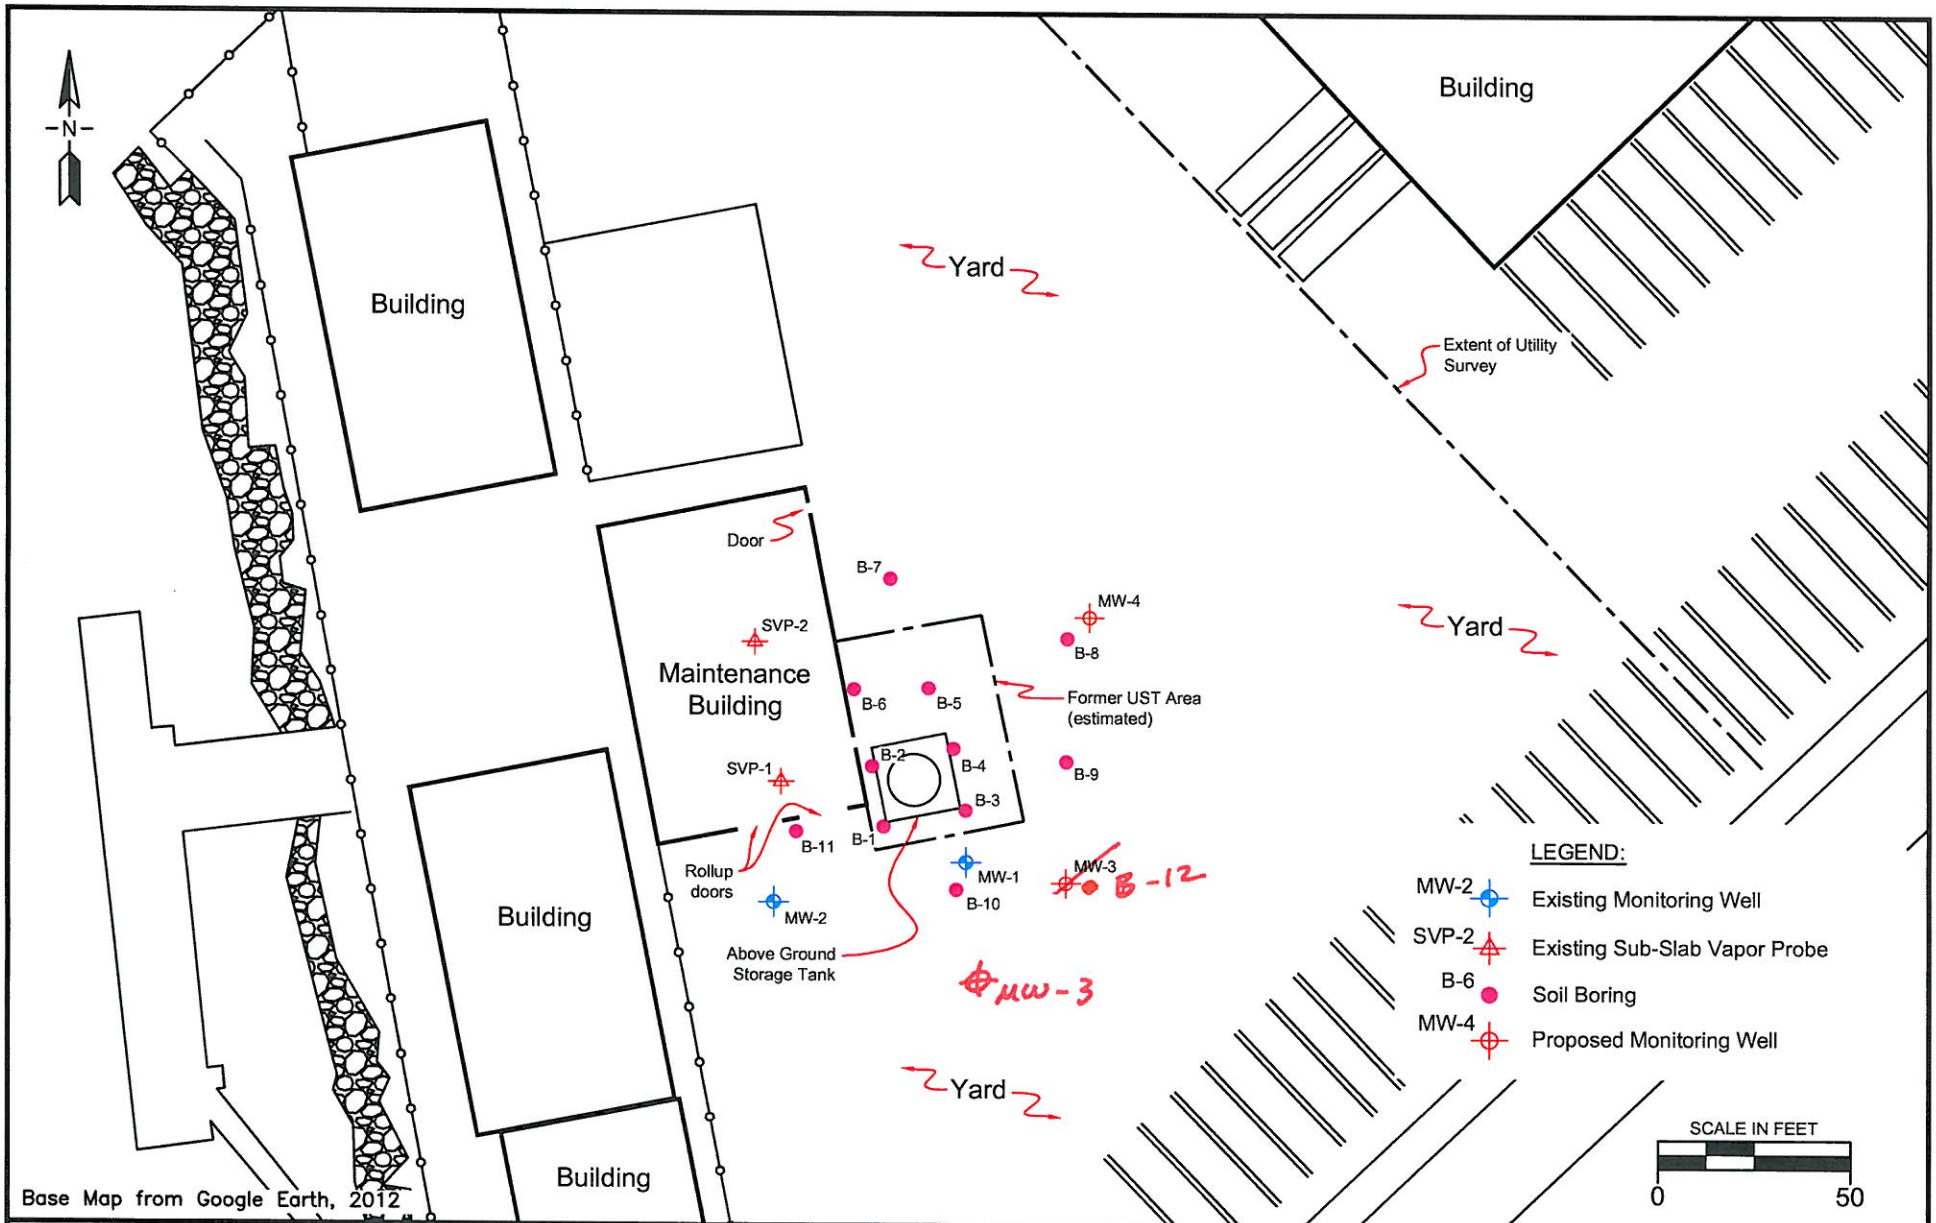

Please confirm your approval of the locations, or let us know otherwise.

Regards,  
Debbie
