Mr. Strauch,

I am following up on a voice mail I just left in regards to the installation of a water well at your address. I wanted to provide you as many methods to communicate with me should you have questions. Please refer to my voice mail for more details in regards to the potential quality of water from your well. I wanted to make sure you were aware of these potential issues before you started.

**Subject:** Fwd: Construction work at 125 Guilford, Piedmont: Notification to our Neighbors

Good evening, Mark,

Mrs. Mulholland received this notification today. I'm not sure where our responsibility lies but I'd imagine the agencies should discuss the open case at 132 Guilford Road.

If you have a few moments to discuss tomorrow let me know.

Thanks,  
Megan

January 27, 2016

Dear Leslie,

Julie and I are writing to inform you of the upcoming well construction at our home, 125 Guilford, Piedmont, which is scheduled to start as early as February 8, 2016 and is expected to end within 2 weeks. In order for the work to begin, the City of Piedmont requires informing impacted neighbors and ascertaining whether you have any objections to this project.

We have contracted with Martell Water Systems, Inc. (Lic. #: 510952), Pittsburg, CA (<http://martellwatersystems.com>) to perform the work and the project has been permitted through the Alameda County Public works department. Martell Water Systems, Inc. has been in business since 1946, drilling water wells and installing pump systems throughout California. They are highly trained technicians in this field.

Martell Water Systems. Martell Water Systems, Inc. has been in business since 1946, drilling water wells and installing pump systems throughout California.

---

This project may create some inconveniences for some of you, which include:

- No parking in front of 125 and 100-124 Guilford (in case emergency vehicles need through access)
- Sidewalk in front of 125 Guilford will be blocked
- Construction noise during normal working weekday hours (9-5)

We have discussed these challenges with Martell in order to minimize the disturbance to our neighbors. Unfortunately, these inconveniences cannot be avoided. Rain or shine, Martell will work diligently to complete the project within 2 weeks.

We thank you in advance for your cooperation and patience during this effort.

By return email, we ask that you acknowledge receipt of this email and raise any issues you may have with this project. If you any questions, please do not hesitate to contact me, Roger, at any time on my cell: 510-910-2142 to discuss your concerns or to meet in person. We would greatly appreciate your response within a day or two so that we may commence work by Monday, February 8, 2016.

Kind regards,

Roger and Julie Strauch

125 Guilford Road

Piedmont, CA 94611
