Duration: 5 minutes

Virenda Patel from the City of Alameda calls about RO2745 and RO3071. The City is planning on placing 7 foot deep vault boxes for traffic at these two sites. I told him that the Shell station has wells but RO3071 does not yet have wells. He asked if there was a distance that they should stay away and I suggested that he stay at least 5 feet away from the wells. He also wanted maps, I told him to call the consultant for the site to get plans. All of our maps are on our website.
