Hi Karel,

You may recall that we sent the report in November 2012. We also discussed that the report was uploaded to GeoTracker, but we had difficulty with the Alameda County ftp site due to a missing Perjury Statement. No mention was made of a 60 day review period during our previous correspondence, although we did discuss the need for receiving review comments in early February.

In any case, we look forward to your comments as soon as possible. As we have communicated previously, this cleanup work is being funded under an Orphan Site Cleanup Fund grant that has a specific expiration date. Extended review periods will limit the amount of work that can be accomplished while funding is available.

Thanks,
Jeff

Hi Brian and Jeff: ACEH received the SCM & Data Gap WP on January 3, 2013. With the 60 day review period you should receive a directive letter response prior to March 4, 2013. Please e-mail me any specific questions you may have.

Thank you,

Karel Detterman, PG
