Subject: Site Cleanup Case No. 00003080, Former Bell Cleaner, 1534 Park Street, Alameda

Hi Marcia:

Alameda County Environmental Health (ACEH) has reviewed the September 8, 2014 Supplemental Soil Gas and Indoor Air Sampling Workplan, prepared by Bonkowski and associates (BAI) for the subject site. ACEH generally concurs with the proposed scope of work for indoor air sampling and concurrent subslab sampling to further assess the potential for vapor intrusion to indoor air. Upon completion of the work, please have BAI prepare a summary table of analytical data upon from the laboratory and submit to me via email correspondence for preliminary discussion.

Dilan Roe, P.E.

Hi Dilan

Attached please find the Supplemental Soil Gas and Indoor Air Sampling Work Plan for the above referenced Site. It has been uploaded to GeoTracker and the ACDEH ftp site.

Please call if you have any questions.

Hi Cindy:

Just checking in on the status of the work plan. Please let me know when you expect to submit.

Hi Dilan

Attached please find the summary table for the Risk Assessment and the Indoor Air concentration table for your review. Also, I'd like to talk with you about the number of the sub-slab sample points when you have a minute. Please let me know when would be a good time to call.

Thanks.
