**Attachments:** Schutze Jan.vcf; SCS476 - Environmental Summary-PAC144.pdf

Hi Jerry,

This e-mail follows up on our telephone conversation a couple weeks ago. I called at that time to discuss with you the Golden Gate Sign Company property (711 Independent Road, Oakland), which is down-gradient from another facility for which you have been the case-worker (700 Independent Road). SCHUTZE & Associates, Inc. is assisting the owner of the sign company who wants to re-finance his property and needs to get an agency opinion regarding the MTBE contamination found at his site. In our telephone conversation you recommended that we prepare a brief summary of the environmental conditions at these sites.

Please review the attachment and let us know if you would issue a "no-further-action" letter or if you recommend more investigations.

Thank you,

Jan Schutze
