Sheryl,

The current station owners (Petromart) are checking with the former owners (Shell) to see who should file the report. I will get it to you as soon as they fill it out.

Donna,
 Attached is leak report for Tank #3. Reports from MVP Petroleum indicated that Tank #3 did not have holes however 5 people on site (including two inspectors) observed holes and we took pictures. Here is my trail of emails on that subject.
 Sheryl Skillern

Thank you,

Mark,
 Yes. The form is entitled UST unauthorized release(leak) contamination site report.
 Thanks,

Sheryl,

I did not think the holes at the other end of the tank penetrated the tank but I can certainly send a report to you.

Is this an "unauthorized release report"?

Thank you,

Mark,
Received report. Thank you. Did you prepare a leak report for Tank #3? There was a large hold due to operator dropping cement at one end but there were holes observed at other end of tank which were not a result of accident.

Sincerely,
Sheryl Skillern

Sheryl,
I faxed the report this afternoon.

Please let me know if it came through correctly and if you want to see anything else.

Thank you,
